Dear Karen,

I have been using your products for a year on my daughter's young cob [Sophie] and it has been **very effective**, she is lightly feathered and came to us **stamping** but this was **quickly remedied** following the **programme scrupulously**.

I have just bought a much older boy (18) [Jester] who is a heavy cob however although I've known him for almost three years he's always had his legs clipped and received [REDACTED] injections. I would like to change to your more natural way of treating him and wondered if you have any additional advice? He also has **low level** [REDACTED] [**crusty areas behind the knees**] and I wondered whether washing behind his knees with the shampoo would help. He also has a **build up of scurf** around his fetlocks too.

*[R&SL suggested following **both** sides of Ruggle-it Planner closely to deal with **both** the behind-the-knee issues {**Mud Planner** with 'pure probiotics' which is critical to help a body finally overcome behind-the-knee issues} and the Mite issue {tell-tale is the fetlocks' scurf that Sam mentions on top of the knee issue which is usually also from Mite damage – follow **Itching Planner** to kill mites}.]*

Kind regards, Sam

Karen I just wanted to **thank you!** Today is the end of the **3 week plan** you recommended for my new boy [Jester] with [REDACTED] [**crusty areas behind the knees**]. Today there is **no evidence** of [REDACTED] **crusty areas behind the knees!**

I will continue with the anti mite programme (**no signs of stamping or itching**- other than his hairy chin!). I will be making the most of your bogof offer too! **Thank you** from me and Jester.

Many thanks to **Sam** from **Chippenham, Wiltshire** for taking the time to write this feedback.

Note: Whilst we are hugely grateful for all the telephone feedbacks we receive on our products, only ones received in **writing & approved by the animal's owner** for use by R&S Ltd will be considered for inclusion on this web or as part of any PR...so that readers have peace of mind that we're not making them up! All quoted testimonials can be viewed at our offices.
